Attachments: final - SETAC - Pesticide Risk Assessment for Pollinators (5-2-13)-3 - MV Chap 3 UPDATE.docx; Non-Apis references no longer cited in Chapter 3 - MV - TM- comments (2-5-14).doc

Hi Tom,

Sorry this took a few extra days.

Attached are edits to chapter 3 and chapter 7 and Chapter 8. Most of the text taken from Chapter 3 was moved to Chapter 7.

The section in Chapter 3 on "Status of Toxicity Testing for Non-Apis Bees" had been removed. I couldn't find where it went, and I thought that it was unique for chap 3. So, I reinserted it.

I think I have addressed all of the other issues we discussed, and I went through your table of citations to make sure there were taken care of (look for my notes inserted into that table of citation). I think I pulled out most of the citations that were no longer used, but we'll probably need to double check. I was losing focus when I got to this point.

Thanks. Give a call if you want.

Mace

Subject: chapter 3

Hey Mace,

I know I haven't held up my end of the deal

I only opened the Chapter 3 Queries on Sunday ... but didn't finish the last 6 or so.

That notwithstanding, I thought I'd touch base with you and see if you've had time to put pen to paper and draft a cross-over section, as we spoke about.

I talked with SETAC and they are going to find the appropriate way to include the non-apis authorship to the core chapters.

Let me know where you happen to be, and I'll get on those last references and send them back to you.

Talk w. you soon,

tm
